Subject: International Training Programme on Library Automation for Professional Enrichment (ITPLAPE): emphasizing on current technology trends

Dear Sir / Madam,

Satyajit Ray Film & Television Institute is an academic film school under the Ministry of Information and Broadcasting, Government of India. It imparts postgraduate specialization programmes for both the film wing and electronic and digital medium (Television course). In addition to the two wings of film and television, the institute has also started few short-term courses / training programme in different disciplines including Library Automation.

In view of the above, the Institute's Library and Information Department is organizing 'International Training Programme on Library Automation for Professional Enrichment (ITPLAPE): emphasizing on current technology trends' (1-week Programme) from 10th December to 16th December 2018 at Satyajit Ray Film & Television Institute, Kolkata (URL of the training programme: www.srfti.ac.in).

The main objective of the training programme is to create awareness amongst academic as well as library and information system professionals on the various digital information service related issues concerning the development of the society by the application of efficient and effective professional skills and practical experiences.

The theme of the training programme:

- Managing Digital / Audio-Visual Resources in Libraries
- Digital repository of audio-visual resources
- Application of Open Source Software in the Libraries
- Open source software like Koha, DSpace etc.
- Discovery tools and services
- Vufind - Integration of Koha and Dspace
- Citation management and Look up through Zotero

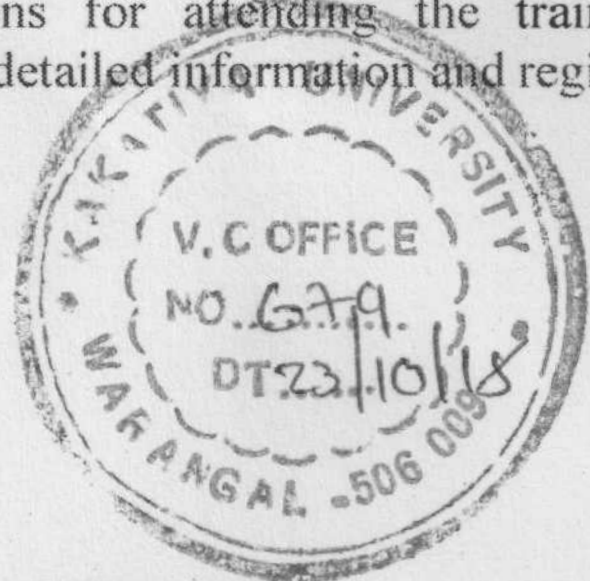

The programme lectures/practical/demonstration will be conducted by the eminent faculty and professionals of reputed institutes/universities/GoI organizations/National Digital Library of India (NDLI), IIT Kharagpur.

The week-long intensive and advanced training programme on Library automation emphasizing on current technology trends in the subject area of Library and Information Science will help him/her to earn-

- API score as per UGC guidelines.
- Promotional requirement as per DOPT Guidelines

May I request you to kindly depute library professionals and/or professionals who manage the IT function of your library information system for participation in this ITPLAPE Programme. The names and contact details of the nominated persons for attending the training programme may please be sent to the undersigned within 26.11.2018. For detailed information and registration please click on: <http://srfti.ac.in/?p=8445>

Thanking you

Supriya

International Training Programme on

Library Automation for Professional Enrichment (ITPLAPE):

emphasizing on current technology trends

10th December to 16th December 2018

**International Training Programme on
Library Automation for Professional Enrichment (ITPLAPE):
emphasizing on current technology trends
10th December to 16th December 2018**

Satyajit Ray Film and Television Institute, Kolkata is organizing a International Training Programme on Library Automation for Professional Enrichment (ITPLAPE): emphasizing on current technology trends from 10th December to 16th December 2018.

Objectives:

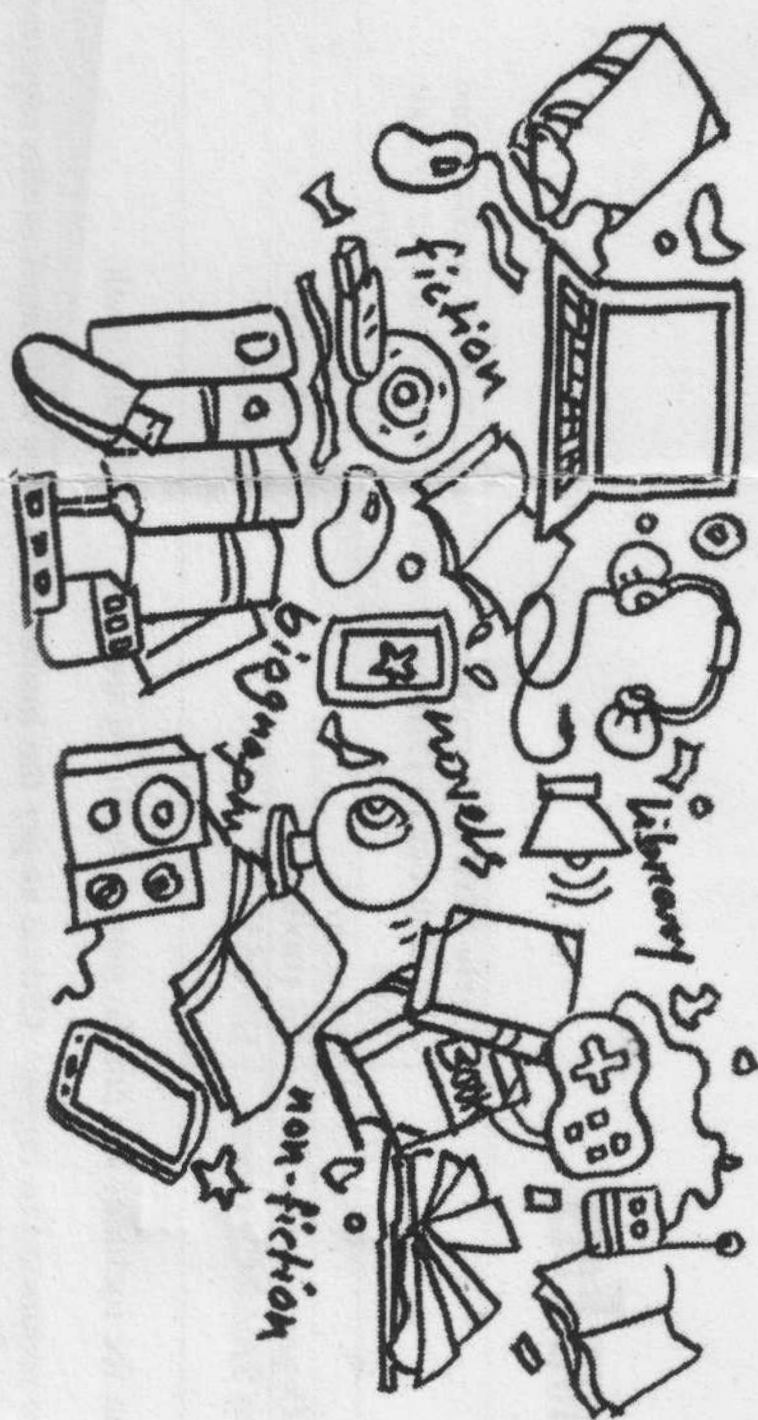

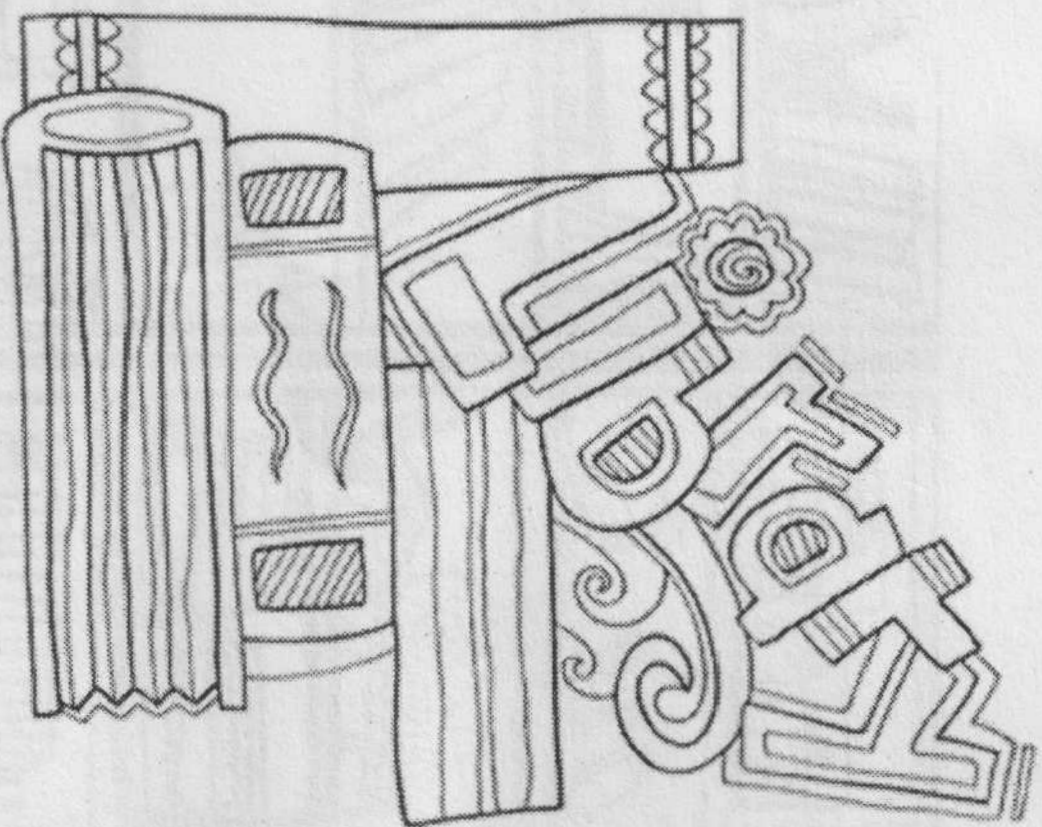

- To create awareness among professionals about open source technology & its application in library.
- To make the library professionals technically sound so as to automate their library independently without any support & also to develop the online application with the help of Content Management System.
- To enable the Library & Information Professionals to face the technological challenges such as installation, data migration, multi-branch handling etc.
- And, to strengthen the society & professionals.

Theme of the Training programme

The main theme of the training programme is to provide theoretical foundation as well as hands-on training keeping in mind the rapid development in the field of IT to the academic and library and information professionals. The training programme intends to cover the essential concepts and technologies for smooth functioning and building a Smart Library. A true hands-on training will be imparted to all the participants enabling them for installation and running some of the essential open source software in their libraries or information centres.

The following topics will be covered:

- Managing Digital / Audio-Visual Resources in Libraries
- Digital repository of audio-visual resources
- Application of Open Source Software in the Libraries
- Open source software like Koha, DSpace etc.
- Discovery tools and services
- Vufind - Integration of Koha and Dspace
- Citation management and Look up through Zotero
- Current technology trends.

Target Participants

Librarians, Working professionals and research scholars in the field of Library and Information Science, Information Specialists, Faculty members of Library and Information Science, Officers under the Central or State Government or Union Territories, interested academicians, and other disciplines may attend this advanced training programme which will be very effective to run and use modern library. It may also be noted that IT Professionals working in Library are also suitable to attend the courses.

The week-long intensive and advanced training programme on Library and Information Science helps to earn-

- API score as per UGC guidelines.
- Promotional requirement as per DOPT Guidelines

Limited Seat Availability: Only 30 seats are available on First-come First-Serve basis

Experts and Resource Persons

The training lectures/practical/demonstration will be delivered by the eminent faculty and professionals from reputed institutes/universities/Govt. of India organizations and also from National Digital Library of India (NDLI), IIT Kharagpur.
