Subject: International Training Programme on Library Automation for Professional Enrichment (ITPLAPE): emphasizing on current technology trends

Dear Sir / Madam,

Satyajit Ray Film & Television Institute is an academic film school under the Ministry of Information and Broadcasting, Government of India. It imparts postgraduate specialization programmes for both the film wing and electronic and digital medium (Television course). In addition to the two wings of film and television, the Institute has also started few short-term courses/training programmes in different disciplines including Library Automation.

In view of the above, the Institute's Library and Information Department is organizing 'International Training Programme on Library Automation for Professional Enrichment (ITPLAPE): emphasizing on current technology trends' (1-week Programme) from 10th December to 16th December 2018 at Satyajit Ray Film & Television Institute, Kolkata (URL of the training programme: www.srfti.ac.in).

The main objective of the training programme is to create awareness amongst academic as well as library and information system professionals on the various digital information service related issues concerning the development of the society by the application of efficient and effective professional skills and practical experiences.

The theme of the training programme:
- Managing Digital / Audio-Visual Resources in Libraries
- Digital repository of audio-visual resources
- Application of Open Source Software in the Libraries
- Open source software like Koha, DSpace etc.
- Discovery tools and services
- Vufind - Integration of Koha and Dspace
- Citation management and Look up through Zotero

The programme lectures/practical/demonstration will be conducted by the eminent faculty and professionals of reputed institutes/universities/GoI organizations/National Digital Library of India (NDLI), IIT Kharagpur.

The week-long intensive and advanced training programme on Library automation emphasizing on current technology trends in the subject area of Library and Information Science will help him/her to earn-

- API score as per UGC guidelines.
- Promotional requirement as per DOPT Guidelines

May I request you to kindly depute library professionals and/or professionals who manage the IT function of your library information system for participation in this ITPLAPE Programme. The names and contact details of the nominated persons for attending the training programme may please be sent to the undersigned within 26.11.2018. For detailed information and registration please click on: http://srfti.ac.in/?p=8445

Thanking you

The workshop involves an introductory assessment of Learning and Information Science in the context of today's digital environment. The participants will explore various aspects of Information Science and how it impacts modern libraries.

The workshop is designed for professionals working in libraries and those who are interested in learning more about Information Science.

Library Professionals and interested scholars in the field of Library and Information Science would benefit from attending this workshop.

The following topics will be covered:

- Current Technology Trends
- Traditional Information and Library of the Digital Age
- Disruptive Ideas and Services
- Open Source Software in Libraries
- Application of Open Source Solutions in Libraries
- Digital Preservations and Visual Resources in Libraries

Library Information: For additional information, please contact the workshop coordinators.
