Dear Sir,

Sub: Apprenticeship Embedded degree programmes - Non  
Engineering - request for proposal - reg.

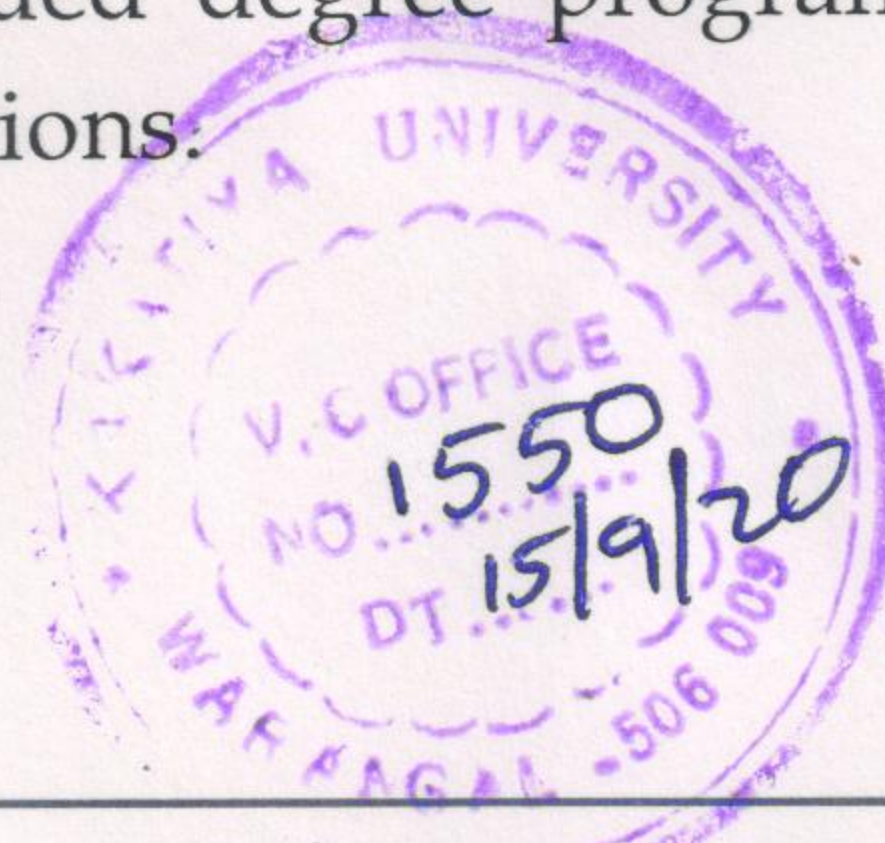

\*\*\*\*

As you may be aware that Government of India gives much importance in developing skilled manpower through various initiatives. Introduction of Apprenticeship Embedded degree programme through various educational institutions offering general education, is one such initiative. India is going to have a largest working population by the end of 2030. In the present scenario, organising gainful employment for General stream Degree students is a major challenge. Improving employability to these students is need of this hour.

Apprenticeship/Internship plays a prominent role in linking higher education with the requirement of the industry under world of work. Apprenticeship embedded degree programmes would improve the employability of the students through industry led, practice oriented and outcome based learning.

In this regard, with a view to get suggestions and pro-active views, it is proposed to conduct the webinar on 24/09/2020, wherein Hon'ble PM and Hon'ble MoE would interact with the Vice Chancellor of the Universities, who are interested to start new courses at degree level (with components of Apprenticeship/Internship embedded degree programmes) in order to increase admission in their affiliated institutions.
