ABOUT THE SEMINAR
Protection and securing of Human Rights has been the paramount foundation of the Civilized States. Infact they constitute the hallmark of Good Governance. The absence of the rule of law, lack of protection against violence, extortion and intimidation, unaccountable and corrupt bureaucracy are antithesis to human rights of the people. The incidence of violation of human rights across the Globe have become a matter of serious concern and more so at national level. The present era of globalization, liberalization and privatization has been posing formidable challenges to the safeguarding of the basic human rights of the people at large. Some of the emerging issues and challenges in the filed at human rights at the national level include, terrorism, gender discrimination, etc. In the light of the above, there is a need to provide a platform for debate and deliberations on the issues and challenges concerning the policies and practices, which encompasses the protection of human rights which are constitutionally guaranteed to the citizens. The present Two Day National Seminar is an endeavour in this direction.
