

KAKATIYA *Vivechana* Vice-Chancellor Speaks....

Vol. 11 Issue 2 July, 2016

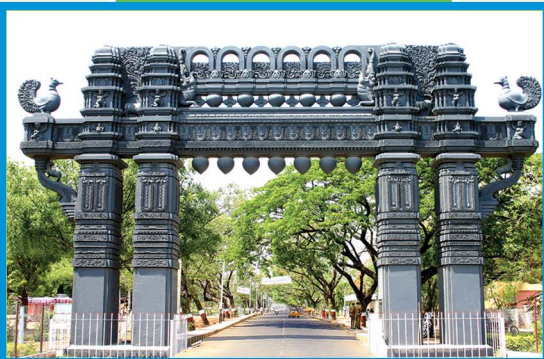

Greetings on the eve of Independence Day and University Formation Day

Kakatiya University will be shortly celebrating the occasion of completion of forty glorious years since its inception in 1976. It gives me immense happiness that I am here to share the pride of the moment with you all. The University carved out a niche for itself over the years with its academic output, well established credentials and capable university administrators. I envisage a very bright future for the university and I intend to carry out all the good traditions that my predecessors have laid. As one who believes in the dictum, "Learn to serve and serve to learn" I wish to initiate certain healthy practices with the participation of all the stakeholders.

Education is an empowering mechanism that inculcates a spirit of belonging and humanity, a sense of oneness and compassion among its partakers. Universities are intended to generate original ideas, promote culture and produce thought leaders. It is in the portals of universities that higher learning leads to research and development through application of ideas. At the same time, universities on their part, need to be sensitive to the needs of their surrounding region.

I believe that in the university system quality sustenance, equity and social justice, transparent administrative set-up, effective functioning of supervisory bodies and innovative teaching and quality research are the benchmarks of excellence. I wish to see that these are put in proper perspective and practice. If these are addressed sincerely inclusive growth will be a possibility. The entire system needs to be geared towards the upliftment and betterment of students giving them the fruits of our efforts. I venture into the administrative echelons of this revered university with these ideas and I hope these will find acceptance in the process of implementation.

Pamulaparth Sadasiva Rao Memorial Endowment Lecture

Prof. C.K. Kokate delivering the endowment lecture

The Seventh Endowment Lecture in memory of veteran freedom fighter and journalist late Sri Pamulaparth Sadasiva Rao was held on January 29, 2016 in the Seminar Hall of KU College of Commerce and Business Management. Former Vice-Chancellor of Kakatiya University and present Vice-Chancellor of K.L.N. University, Prof. C.K. Kokate speaking on the topic "What is ailing Indian Higher Education System" said that the Indian Higher Education has witnessed significant quantitative transformation during the post-independent era and qualitative development is also essential, he said. He said that inconsistency in policies and adhoc planning, multi-centric regulatory control systems, quality of teachers and students, uneven distribution of higher educational institutions are some of the key issues to be addressed. With change of governments, education policies are also being changed, he observed. Adhoc policies in education system would not yield fruitful results. Education institutions are mostly urban centric causing uneven distribution of learning opportunities depriving higher education access to students of rural areas. He exhorted the teachers to dedicate themselves to sacred duty of knowledge dissemination to ensure quality of education. A good teacher is a life long learner, a preacher of moral values, an elicitor of academic synthesis, an excellent motivator, a precursor for academic processor, an educator par excellence and a model for his students, opined. Incharge Registrar Prof. Khaja Althaf Hussain presided over the lecture programme. Prof. M. Subramanya Sarma, Dr. Pamulaparth Niranjana Rao, Dr. P. Rama Rao, former Vice-Chancellors Prof. Vidyavathi, Prof. V. Gopal Reddy were among those present.

Legal Awareness Camp on Women Laws

The Centre for Women's Studies of Kakatiya University organized a one day legal awareness camp on "Women Laws" on February 10, 2016. Addressing the audience in the Senate Hall, Smt. G. Neelima, Senior Civil Judge and Secretary Legal Services, Warangal explained the necessity to have awareness about laws pertaining to women. In order to curtail and control offences on women a number of laws on Sex determination, Dowry Harassment, Nirbhaya and POCSO (Protection of Children from Sexual Offences) are in force. Citing the recent incidence of suicide, she said, Ritheshwari, would have not committed suicide, had she been fully aware of the anti-ragging laws and its consequences. These laws help not only to protect themselves but also to give advice to others. Explaining about SHE Teams, Warangal Crimes ACP K. Eswara Rao said that ten teams are effectively functioning in Warangal City in four divisions concentrating on 54 areas and booked 270 eve teasing cases so far. He exhorted the girl students not to hesitate to report eve teasing incidents. The two short films screened on the occasion were interesting and thought provoking. The songs and skits presented by Jagruith Kala Brundam (Rural) enthralled the audience. University College Principal Prof. N. Rama Swamy, Centre and programme Director Dr. G. Prof. P.A. James Memorial Endowment Lecture

The 12th Endowment Lecture in memory of Prof. P.A. James was held at Kakatiya University on January 30, 2016 in the Senate Hall. Prof. D. Ravindra Prasad, former Professor of Osmania University and Advisor, Academic Staff College, Hyderabad delivered lecture on "Our urban futures: Towards Good Governance and Sustainability." He said that urbanization, despite its contributions to economy and quality of life brings in its train many challenges relating to governance, infrastructure and service delivery, poverty, environment etc. About half of the world's population is in urban areas and India's urban population is the second largest in the world next to china. He stressed the need for Urban Policy to meet the future challenges of urbanization. Though we have Industrial policy, Education Policy and policies for every field, Urban Policy is not yet prepared, he pointed out. Urban Policy would be a guide for the systematic development of cities and to meet the growing challenges due to urbanization. Implementation of 74th Constitutional Amendment providing empowerment to the local bodies, need for modern decision making architecture, redesigning institutions to administer the present and emerging urban challenges, revamping human resources to bring professionalism into urban governance, conferring autonomy and freedom on cities to address specific problems are some of the measures to be taken in this direction to address the urban challenges, Ravindra Prasad said. Incharge Regsitrar Prof. Khaja Althaf Hussain, Prof. M. Kistaiah, Prof. T. Satyanarayana, Dr. T.V. Sujatha Kumar, Mr. Samuel Sudhakar were among those present.
