**References:**

3. Alex Thio : Sociology  
4. Inkeles, Alex : What is Sociology? Prentice Hall of India, New Delhi  
7. N. Jayaram : Introductory Sociology Macmilan India Limited.

**PEDAGOGY:**

While introducing sociology as a social science emphasis should be laid on the distinctiveness of its perspective rather than on its substantive themes of study.

For effective teaching and meaningful learning, illustrations may be drawn from relevant empirical studies.

Throughout the course, conscious effort should be made to drive home the relevance and significance of sociology for understanding society and in attempting to solve its problems.
OBJECTIVES:

It is presumed that the student has some familiarity with Indian Society by virtue of the fact that he is a member of it and that he has observed and experienced some facets of it. However, this familiarity is likely to be superficial, selective and rather fragmentary. The course is aimed at rectifying these limitations by presenting a comprehensive, integrated and empirically-based profile of Indian Society.

The continuity between the present and the past is an evident feature of Indian society. Though this continuity is reflected in the structure of the course, the focus is on the contemporary Indian society. It is hoped that the sociological perspective on Indian society presented in this course will also enable students to gain a better understanding of their own situation and region.

1. **Structure of Indian Society**

**PEDAGOGY :**

The use of audio-visual media should be a necessary and important component of instruction. The participation and involvement of students should be ensured through formal and informal discussions in the class room and field visits. They should be encouraged to write short essays on the local situation and local issues under the guidance of the teacher. Wherever possible, illustrations should be drawn from the local situation.
OBJECTIVES:

Society in India today is undergoing rapid and massive changes. Many of changes are such that they tend to call into question the ages-old social norms and practices, thus giving rise to some critical social issues and problems.

This course is designed to identify and analyze some of such emerging social issues and problems from sociological perspective. In the interest of systematic ordering, the issues and problems have been classified into two broad sets: structural, and developmental.

The course seeks to go beyond the commonsense understanding of the prevailing social issues and problems in order to project them into their structural context. Accordingly, if focuses on their structural linkages and interrelationships.

Hence the objectives of the course are to sensitize the students to the emerging social issues and problems of contemporary India, enable them to acquire sociological understanding of these issues and problems over and above their commonsense understanding, empower them to deal with these issues and problems and to serve as change agents both in governmental and non-governmental organizations.

1. Social Change

PEDAGOGY:

The course requires a pedagogy that seeks to project the issues of contemporary India in a social structural perspective. For this purpose, the students have to be sensitized to the structural roots of the problems as well as to the effects of these problems on the existing social structure. In order to give the students a sympathetic understanding of the problem, it will be rewarding to use the methodology of role playing. The students may also be encouraged to make on the spot observations of the problems wherever and whenever they find recurrence of these problems.

The use of audio-visual media should be a necessary and important component of instruction.

The participation and involvement of students should be ensured through formal and informal discussions in the class room and field visits. They should be encouraged to write short essays on the local situation and local issues under the guidance of the teacher.

Wherever possible, illustrations should be drawn from the local situation.
