National Education Policy 2020

Ministry of Human Resource Development

Government of India

About the Seminar:

The National Education Policy 2020 aimed at transforming India's education system into a modern, progressive and equitable one. The new policy focuses on improving poor literacy and numeracy outcomes associated with primary schools, reducing dropout levels in middle and secondary schools and introducing the multidisciplinary approach in the higher education system. Besides, the policy also lays emphasis on early childhood education, restructuring curriculum and pedagogy, reforming the examination process and investing in teacher training. The rapid economic and industrial development of the nation calls for HEIs evolving, through their energized faculty, curricular structures that promote interdisciplinary outlook and critical and innovative thinking among the students to lead to the creation of world class HEIs.

In this context, this seminar aims to share views and ideas about new possibilities of delivering management education. Through this seminar efforts will be made to highlight the relevance of National Education Policy 2020 with management teacher's education for enriching the techniques of skill development in general and management teachers in particular so that our management education shall achieve the purpose.
