

# ECONOMICS OF COVID-19

DIGITAL HEALTH EDUCATION & PSYCHOLOGY

Foreword by Prof. Sukhadeo Thorat

**B. Suresh Lal**  
**Naiya Patel**

In this crucial time of COVID-19, where vaccines and potential treatments stand in clinical trials. Immediate effective public policy or economic policy couldn't be achieved, if the academic quality of evidence-based, multidisciplinary research isn't made available to policymakers. The book, therefore, attempts to serve the Public Policymakers, Academicians, and Stakeholders as a source of evidence-based literature through 15 scholarly works. Hence the book mindfully covers areas requiring immediate attention for potential impacts, which otherwise could create long and short term adverse shocks in the overall National Economy.

The sections of the book carefully explore the interconnected and multidisciplinary areas, which are either directly or indirectly affected due to COVID-19. They are Econometric modeling, Economic and Health issues, Digital education, Digital health strategies, Public service, Psychology, and Psychiatrica. The book could be used as a handbook for policymakers, academics, and scholars to learn about the potential impact of a pandemic globally.

# Economics of **Education**

Issues and Challenges

Prof. B. Suresh Lal

## ABOUT THE BOOK

Education is the most potent tool on which we would be successful to build an equitable and just society with the feature of dynamic social-economic mobility as education provides skill and competencies for economic well-being for whole society and so for the whole nation too. Education acts as an integrative force in society, imparting values that foster social cohesion and national identity. Moreover, Education plays a positive and interventionist role in correcting social and regional imbalances, empowering women and in securing rightful place for the scheduled tribes, caste, disadvantaged and minorities. Education makes Values, Loyalty, Sincerity and Education is Lighting Development in the Life.

Education is a basic human right, and it is central to unlocking human capabilities. It also has tremendous instrumental value. Education raises human capital, productivity, incomes, employability, and economic growth. But its benefits go far beyond these monetary gains: education also makes people healthier and gives them more control over their lives. And it generates trust, boosts social capital, and creates institutions that promote inclusion and shared prosperity.

The volume will provide immense inputs and help to academicians, students, researchers, policy makers, education planners and administrators.

## ABOUT THE EDITOR

**Prof. B. Suresh Lal** is Professor Department of Economics, Kakatiya University, Warangal, Telangana State- India; he obtained his M.A (Econ), M.Phil (Labor Migration) & Ph.D (Environmental Economics) from Kakatiya University. The background features a teal banner with the title text. Above and below the banner are several colorful lines in red, purple, and yellow, some of which are jagged, resembling a line graph or a stylized heartbeat. The overall design is clean and professional.

# ESSAYS ON HEALTH ECONOMICS

Dr. B. Suresh Lal

India is drawing the world's attention, not only because of its population explosion but also because of its prevailing as well as emerging health profile and profound political, economic, and social transformations. Health is a function, not only of medical care but also the overall integrated development of society- cultural, economic, education, social, and political. Each of these aspects has a profound influence on health that, in turn, influences all these aspects. Health is an essential determinant of economic wellbeing.

This book covers twenty chapters into four major areas; first General Health Status, second Diseases & Medical Tourism Status, third Women & Child Issues, and fourth Environmental Health Issues. It provides an understanding of healthcare, health economics, environmental health issues, and wellbeing. This book will receive excellent attention and support from researchers, scholars, and policymakers.

**B. Suresh Lal** is currently working as Professor of Economics at the Department of Economics, Kakatiya University, Warangal, Telangana State- India; he obtained M.A (Economics), M.Phil (Labor Migration) & Ph.D. (Environmental Economics) from Kakatiya University. He has 24 years of active teaching and research experience. He is a reputed scholar on Development Economics. He is serving as Editor to International Journal of Environment & Development and Editorial Board Member to 38 International Journals. He has to his credit 20 books written and edited and published 110 articles in international journals and conferences. He completed five research projects, guided 11 Ph.D. scholars, and delivered 311 Talks to college students on various contemporary issues.

Prof. Suresh is a Fellow of the International Academy of Social Sciences USA and International Society for Ecological Communication-Poland. He is jury member of the Global Undergraduate Awards, Ireland. He extensively visited 20 countries across the globe on academic assignments.

Prof. Lal has conferred Indira Gandhi National Award by the president of India and recipient of the President's Lifetime Achievement Award from the US President, Bharat Shanthi Dooth Award, Amartya Sen Gold Medal Award, Mother Teresa Gold Medal Award, Bio-graphed in Who's Who in the World by Marquis Publication-USA, Holder of Unique World Records & Pride of Nation-Everest World Records, Research Laureate Award in Economics and Outstanding Economist Award.
