OPEN ACCESS (FREE) ACADEMIC ELECTRONIC ARCHIVES

ArXiv.org (<http://arxiv.org/>) - An Open Archives Initiative (OAI) compliant archive of electronic preprints in physics, mathematics, computer science, and non-linear sciences. Created by Paul Ginsparg in 1991, it is one of the oldest archives of free online scholarship.

HighWire Press (<http://highwire.stanford.edu/>) - Division of the Stanford University Libraries producing online versions of peer-reviewed journals and scholarly content.

Department of Energy Information Bridge (<http://www.osti.gov/bridge/>) - Full-text research and development reports in physics, chemistry, materials, biology, environmental sciences, energy technologies, engineering, computer and information science, renewable energy, and other topics.

US Department of Energy - Energy, Science, and Technology Preprints (<http://www.osti.gov/preprint/>) - Searchable gateway to preprint servers that deal with scientific and technical disciplines such as physics, materials, chemistry, biology, environmental sciences, and nuclear medicine, related to the activity of the department.

CiteSeer (<http://citeseer.ist.psu.edu/>) - Autonomously creates citation indexes of scientific literature. Generates citation statistics and allows easy browsing of the context of citations. Texts freely available in PDF, PS, HTML format.

CCSD: Thèses-en-Ligne (<http://tel.ccsd.cnrs.fr/>) - Eprint repository of French theses in various scientific domains [French/English].

CCSD: Hyper Article Online (<http://hal.ccsd.cnrs.fr/>) -An interface for submitting scientific papers to the article database of the French Centre pour la Communication Scientifique Directe. Papers in mathematics, physics, information science are instantly and automatically directed to "arXiv" [bilingual site in English/French].

NASA Astrophysic Data System (<http://adswww.harvard.edu/>) - Free online abstracts and full-text papers in astronomy, astrophysics, planetary sciences, and solar physics.

Southampton CiteBase Services (<http://citebase.eprints.org/>) -Eprints service provider hosting digital archives of the University of Southampton.

OAIster (<http://oaister.umdl.umich.edu/oaister/>) - Gives access to a large number of eprints archives and electronic resources and through the OAI harvesting protocol reveals digital resources previously "hidden" from users behind web scripts.

CERN Document Server (http://webbib.cern.ch/Home/Library_Catalogue/Articles_and_Preprints/) - Articles and preprints collection aiming to cover the published and pre-published literature in particle physics and its related technologies. The collection includes about 400,000 documents, many of which in full-text access.

EPrints in Library and Information Science (<http://eprints.rclis.org/>) - E-LIS is an open access archive to deposit preprints, postprints and other documents in the field of library and information science in electronic format.

Uppsala University Publications (<http://publications.uu.se/>) - Full-text working papers and research reports in PDF format.

Free Full-Text Science Archives (<http://highwire.stanford.edu/lists/largest.dtl>) - A directory with annotated links to institutional full-text scientific archives.

Document and Publication Server of the Humboldt University of Berlin. (http://edoc.hu-berlin.de/index_en.php) - (EDOC) Provides free access to publications, theses and dissertations, electronic e-print journals. [English and German]

Digital Library of Information Science and Technology (<http://dlist.arizona.edu/>) - (DLIST) Developed by the School of Information Resources and Library Science and the Arizona Health Sciences Library at the University of Arizona using Open Archives Initiative (OAI) compliant Eprints v.2 software.

Philsci Archive (<http://philsci-archive.pitt.edu/>) - An electronic archive for preprints in the philosophy of science.

eScholarship Repository (<http://repositories.cdlib.org/>) - Repository of the University of California, U.S., offering a broad range of e-books, journals and peer-reviewed scientific documents. Includes submission guidelines, editing assistance and FAQs.

E-Journals (https://kakatiya.ac.in/ejournals)	
Caltech Computer Science Technical Reports (http://caltechcstr.library.caltech.edu/) - Electronic archive of freely downloadable full-text technical reports in PDF format.	
The Computation and Language Eprint Archive (http://www.acm.org/pubs/corr/) - An electronic repository of full-text papers in computational linguistics, natural language processing, speech processing.	
AKT Eprints Archive (http://eprints.aktors.org/) - Electronic archive of the Advanced Knowledge Technology Project. Downloadable papers in knowledge management.	
Bergen Open Research Archive (BORA) (https://bora.uib.no/) - Digital repository of a research institutions in Norway. Includes full-text peer-reviewed journal reprints, theses, dissertations and other academic research materials. [English, Norwegian]	
Elektronische Bibliothek der Staats- und Universitätsbibliothek Bremen (http://elib.suub.uni-bremen.de/) - Digital archive providing full-text access to papers, theses and dissertations in PDF format.	
Electronic Publications of the WU-Wien (http://epub.wu-wien.ac.at/) - Electronic archive providing full-text access to working papers and dissertations of the Vienna University of Economics and Business Administration.	
Caltech Earthquake Engineering Research Laboratory (http://caltecheerl.library.caltech.edu/) - Archive of freely downloadable technical reports from several labs in the domain of earth sciences at CalTech.	
Computer Science Teaching Center (http://www.cstc.org/) - A digital archive of peer reviewed resources for teaching computer science. Submission restricted to registered users.	
History and Theory of Psychology Prints (http://htprints.yorku.ca/) - (HTP) Gives access to full-text of refereed papers. Registered users may also deposit appropriate material.	
ANU Library Eprints (http://dspace.anu.edu.au/handle/1885/44441) - Browsable electronic pre- and post-print repository of the Australian National University.	
Fourth International Symposium on Cavitation (http://cav2001.library.caltech.edu/) - (CAV 2001) Proceedings of the symposium, downloadable from this electronic repository hosted by the Caltech Library System.	
Centre for Logic, Epistemology and the History of Science (http://www.cle.unicamp.br/e-prints/) - Preprints by members and visiting researchers of the CLE, a research institute at the University of Campinas, Brazil.	
Caltech Electronic Theses and Dissertations (http://etd.library.caltech.edu/) - Searchable and browsable repository of theses and dissertations from Caltech.	
HofPrints (http://hofprints.hofstra.edu/) - An electronic archive for papers produced by members of the Hofstra University Community. It includes papers written by faculty and administrators, papers delivered at Hofstra University sponsored conferences as well as invited lectures.	
IOWA University - Computer Science Technical Reports (http://archives.cs.iastate.edu/) - Digital repository of full-text technical reports downloadable in multiple formats.	
MIT Theses: Science, Technology, and Society (http://dspace.mit.edu/handle/1721.1/7912) - Searchable collection of selected MIT master's and doctoral theses available online.	
SISTA (http://homes.esat.kuleuven.be/~sistawww/cgi-bin/pub.pl) - Publication database with search engine from the Katholieke university, Netherlands. Includes books, papers, reports and theses on different scientific topics.	
Collection on Critical Global Issues (http://www.nzdl.org/cgi-bin/library?a=p&p=about&c=ccgi) - Full-text access to publications in the fields of agriculture and land management, development, environment and sustainability, food and nutrition, natural resource development, science and technology.	
World Environment Library (http://www.sadl.uileth.ca/nz/cgi-bin/library?a=p&p=about&c=envl) - New Zealand Digital Library Project provides full text access to publications in the fields of agriculture, biodiversity, climate change, environmental impact assessment, energy, health, natural resources, policy, sustainable development, waste management and water.	
Archivio E-Print (http://e-prints.unifi.it/) - Institutional archive hosted by the library services of the University of Florence. Contains teaching and research documents.	
Medical and Health Library (http://www.nzdl.org/cgi-bin/library?a=p&p=about&c=mhl) -Hosts full-text publications in the fields of clinical treatment, emergencies, essential drugs, family planning, food and nutrition, health education, HIV/AIDS, medical equipment, prevention, public health, sanitation.	
Computer Science Technical Reports (http://www.nzdl.org/cgi-bin/cstrilibrary?a=p&p=about) - Free access to more than 45,000 technical reports in computer science extracted from nearly 300 sites around the world.	
Health InterNetwork Access to Research Initiative (HINARI) (http://www.healthinternetwork.org/) - Provides free or very low cost online access to the major journals in biomedical and related social sciences to local, non-profit institutions in developing countries.	
AGORA (http://www.aginternetwork.org/) - Provides access to over 500 journals from major scientific publishers in the fields of food, agriculture, environmental science and related social sciences. AGORA is available to students and researchers in qualifying not-for-profit institutions in eligible developing countries.	
Open Society Institute (http://www.soros.org/) - OSI. Promotes the development and maintenance of open societies around the world through an array of activities dealing with educational, social, legal, and health care reform.	
International Network for the Availability of Scientific Publications (http://www.inasp.info/) - INASP. Its mission is to enhance the flow of information within and between countries, especially those with less developed systems of publication and dissemination.	
International Institute for Communication and Development (IICD) (http://www.iicd.org/) - Assists developing countries to realise locally owned sustainable development by harnessing the potential of information and communication technologies (ICTs).	
The Essential Electronic Agricultural Library (TEEAL) (http://www.teeal.org/) - A full-text and bibliographic CD-ROM library of over 140 of the world's most important scientific journals in the field of agriculture. It is available well below cost to over 100 of the lowest-income food deficit countries, as listed in the World Bank's World Development Report.	
International Consortium for the Advancement of Academic Publication (ICAAP) (http://www.icaap.org/) - Technological support for the delivery of scholarly content. Develops protocols for the delivery of scholarly content, provides software for journal management and publication, hosts a database of free scholarly journals and resources.	
Book Aid International (http://www.bookaid.org/) - Provides books to libraries, hospitals, refugee camps and schools in order to support literacy, education, training and publishing in over 40 countries around the world. Concentrates over 85% of its resources on 13 countries in sub-Saharan Africa.	
James Burke's Knowledge Web (http://www.k-web.org/) - Digital incarnation of the James Burke's television programs. Visitors can create their own pathways through history, contribute content and investigate virtual reality learning spaces.	
Public Library of Science (http://www.plos.org/) - PLoS. Non-profit organization of scientists committed to making the world's scientific and medical literature freely accessible to scientists and to the public around the world. Promotion of free access online journals and eprints archives.
