Dear Sir/Ma'am,

Greetings from Internshala.

We are delighted to announce that we have launched the eleventh edition of our flagship program - Internshala Student Partner (ISP 11).

About the program - Internshala Student Partner 11 (ISP) is a **50-day transformational** work-from-college program which will mold your college students into young professionals ready to win the corporate world. Selected students will take part in various activities to raise awareness about internships and trainings in your college. This will be a great learning opportunity for them to develop their marketing and communication skills.

Rewards - The selected students will receive a certificate of appreciation at the end of the program as well as performance-based financial incentives (we have given financial rewards worth INR 70 lacs+ in our previous editions).

How will the college benefit? - These student partners will strengthen the internship and training culture of your college by creating awareness, hosting seminars, and guiding students to apply better for internships. This will ultimately have a positive impact on your final placement/internship records.

Interested students can apply here - <http://bit.ly/ISPAPPLY> (applications have already begun). The last date to apply - **31st August 2018**.

I request you to share this email with all your students so that they can apply. You can also post this letter (download) on your noticeboard and send it to all the class representatives so that maximum students can apply to this transformational program.

In the case of any queries, please feel free to contact my colleague Aayushi at +91 8929294027.

Many thanks,
Samay Bhatnagar
Manager - University Relations
