FDP:

SCILAB is a Free/ Libre and Open Source Software (FLOSS), created mainly for Numerical computations. It uses the state of the art Numerical libraries, such as LINPACK, EISPACK and LAPACK, and hence, its results are highly reliable. SCILAB implements the user-friendly language, similar to the one used in the popular software MATLAB. But unlike MATLAB, SCILAB can be freely downloaded, freely copied, freely modified and also freely distributed. Naturally, SCILAB can be used absolutely free of cost, unlike MATLAB, which can be extremely expensive, especially to the industry. SCILAB comes with a graphical programming interface Xcos, which is similar to Simulink. A good knowledge of SCILAB will help improve the employment potential of our students. It is freely available for use in Linux and Windows. Therefore, UCETW, Kakatiya University will be organising one week faculty development program to empower faculty members in SCILAB for imparting to students for getting enhanced employment opportunities. This program being organised with the support of IIT Bombay-Spoken tutorial

About university

KAKATIYA UNIVERSITY was established on 19th August, 1976 to fulfill the aspirations of the Telangana people for higher education. It is one of the oldest Government university. It is accredited with 'A' grade by NAAC.

UNIVERSITY COLLEGE OF ENGINEERING & TECHNOLOGY FOR WOMEN is one of the best campus engineering colleges. It is established to empower women's in technical education.

The FDP on SCILAB will be conducted online by UCETW in association with 'Spoken Tutorial' developed by IIT-Bombay and with the support of KUCET. The 'Spoken Tutorial' is an initiative of National Mission on Education through ICT, MHRD, Govt. Of India to promote IT literacy through Open Source Software.
