NATIONAL SEMINAR ON ETHICS IN MICROBIOLOGY

25TH July, 2015

Organized by

Department of Microbiology

(UGC – SAP and DST – FIST Recognized)

Kakatiya University

Warangal – 506 009 Telangana

About the Seminar

Ethical issues in microbiology are related to processes and procedures during the laboratory work and on the data/reports they generate for the patients or in research. There is pressure to perform, which is exerted by both, the community, as well as peers. It has therefore become increasingly necessary to recognize the facts that unethical actions might be a frequent reality. Since some of these activities generate serious ethical concerns, both in practice and research, it is necessary for microbiologists to be aware and equipped to meet these issues in a prepared and measured way. This is an attempt to educate all the microbiologists on the ethics that one should follow.

About Warangal

Warangal (historically known as Orugallu) is a historical city of capital of erstwhile dynasty that ruled the region from 12th to 14th century. It is about 140 km away from Hyderabad, well connected by rail and road from all major cities. It is a beautiful place of rich flora, wild life and lakes and with ethnic tribes spreading all over the district. Warangal is the heart of Telangana culture and considered as hub for renaissance of literary, cultural and social activities. Warangal is known for its historical monuments like Thousand pillar temple, Warangal fort, Ramappa temple that are marvels of architecture, that no one likes to miss. The people of Warangal are peace loving, courteous and are known for their hospitality.

About the University

Kakatiya University was established in sprawling 650 acres of land adjoining Warangal city to serve the educational needs of people of Northern Telangana. Its inception has heralded the long cherished aspiration of the rural people of Northern Telangana. In an effort to give impetus to the educational, research and faculty exchange

programmes with foreign universities. The University has entered MoU with many foreign Universities and Institutions. The University has now 24 departments on the campus with a network of eleven constituent colleges and 471 affiliated colleges. It is offering about 120 programmes at undergraduate and post graduate level in the faculties of Arts, Science, Pharmaceutical Science and Engineering. The university has hoisted its flag high in the area of sports and games at national level. Social activities undertaken by National Service Scheme (NSS) brought laurels to the University at national level. In the fitness of things, aptly the University was accredited with 'A' grade by NAAC in 2009.

About the Department

The department of Microbiology has a humble take off in 1993 with minimum financial support from UGC seventh plan. Prof. S.M. Reddy, Prof. Vidyavati and Prof. V. Thirupathiah, have made a strong foundation to this department in teaching and research frontiers. The successful installation of UG Program in many degree colleges has given a great responsibility to the department and developed a sound curriculum and converted it into a job oriented vocational program. Slowly and steadily many colleges offered this course in UG and PG levels. At the same time, Ph.D. program was also initiated and all the staff is actively engaged in this research activity. Considering the contribution of the department in the research the DST has sanctioned FIST and UGC recognized under SAP. The faculty are very active in research and sanctioned with around one crore grants from UGC, DBT, DST, CSIR, MoEF, DAE-BRNS and DRS-BSR. So far 19 batches of students completed their PG program and came out well settled in their life. The department has given utmost importance for the syllabus and updated it for every 5 years incorporating the recent trends and contemporary methodologies. Practical component in the curriculum was also updated and the students were trained with useful modern techniques

National Seminar on **Ethics in Microbiology** 25th July, 2015
